

RE: MB Docket No 04-233, I am one of hundreds of thousands of listerner of K-LOVE radio. I listen locally on 106.7, and the thought the station being forced off of the air because of LPFM is very upsetting. K-Love serves me anod others as residents of the local community by providing a positive, fun and encouraging listening choice for my ENTIRE family. The displacement of K-LOVE would mean one less choice of the already family-friendly, wholesome programming available. To lose this valued service would mean loosing a service that has a positive impact throughout the community. With two small children in my home, the issue of wholesome, positive, family-friendly programming is very important to me and also, I believe, in the the public interest. To allow stations like K-LOVE to be displaced by these new LPFM stations, I feel would be a great disservice to communities throughout America.
